

AFTER CARE INSTRUCTIONS

Duration of Healing

Stage of Healing

2 Hours

Any redness or irritation will be decreased.

Day 1-3

Avoid sweating and all water contact on fresh eyebrows.

Day 4-10

Apply a THIN amount of after care balm with a clean cotton swab ONLY as needed. No more than 3 times a day.

Day 5

These are NOT the true results. They will appear dark & intense. Once the skin starts healing & flaking the color will fade considerably.

Day 10

Color will appear lighter as your skin is resurfacing. Color will reappear slowly.

Day 14

Eyebrows are almost fully healed.

Week 6-8

Eyebrows should be fully healed and final color will be apparent.

Avoid While Healing

Avoid the following for 14 days:

NO EXCEPTIONS!

- Tanning
- Swimming / Hot tubs
- Saunas
- Long showers & baths
- Massages
- Exercising
- Sweating
- Lash appointments
- Hair touching your face
- Wearing makeup near your brows
- Skincare near your brows
- Touching eyebrows
- Sleeping on your face
- Facial treatments

• NO UNPROTECTED SUN EXPOSURE 30 DAYS BEFORE AND AFTER ANY PERMANENT MAKEUP APPOINTMENTS!

DO NOT pick, peel or scratch - this could cause scarring or removal of pigment.

DO NOT touch the area - except with a clean cotton swab when applying after care.

DO NOT be alarmed when color appears very dark, light, or when it starts flaking off - this is the normal healing process!

How to preserve your new brows:

- Avoid direct sun exposure. Wear a hat or our Brow Immortelle Oil daily.
- Avoid chemical peels / retinol / acne treatments - check your skin care ingredients.
- Follow these instructions! After care is crucial in determining the outcome of your new brow tattoo.
